

Welcome to the auction for C-FPUN

- C-FPUN is a Vans Aircraft RV12 which was built and registered in Canada in the amateur built category. It is a two person side by side aluminum construction aircraft with easily removed wings so the plane can be stored in a single car garage and easily trailered. It is powered by a Rotax 912 ULS engine which gives a cruise speed of about 130 mph with a 4.5 gallon per hour fuel burn. Great performance and great economy!
- Detailed information including specifications and performance data about the model can be viewed at:
<http://www.vansaircraft.com/public/rv12.htm>
- C-FPUN options include ADS-B , Dynon Skyview, lighting kit , wheel fairing kit , canopy trim kit and glareshield. Factor in about 1000 person hours to build it, and the cost of a spectacular paint job in your bid.
- The aircraft is located at the Campbell River, B.C. airport (CYBL). Serious bidders can view the plane there, and potentially go for a flight if conditions allow.
- Bidding is open until 19:00 PDT May 14th, 2017 (02:00 Zulu, May 15). Reserve bid is US\$ 79,000 and the “Buy Now” price is US\$ 105,000. The current price for a factory built LSA RV12 is approximately \$US 125,000.
- When you bid you will be required to submit some personal information such as name, phone numbers and a valid email address, and you will be contacted by a member of the TeenFlight auction committee to ensure the validity of all bids. You will also be required to remit a nominal registration fee of US\$ 10 through Paypal as an indication of good faith in the bidding process and to ensure that you are not a robot.
- Please note that if you are bidding from the United States the aircraft will be registered as experimental and not in the LSA category. C-FPUN can be delivered to Washington or Oregon for the convenience of a successful bidder from the United States.
